Re: Expression of Interest

Dear Carola:

Over the past several months, I've had the privilege of convening a broad group of Stamford-area stakeholders who have been exploring opportunities to accelerate the social and economic integration of new immigrants into the fabric of our community.

Having seen the role which Neighbors Link successfully plays in educating, employing and empowering a similar population in nearby Westchester, we would now like to extend an invitation to Neighbors Link to join us in creating a community center in Stamford for recent immigrants to this area.

While we expect that such a center would be an independent 501(c)3 organization with its own funding support and governance, we believe that the effort would benefit from the Neighbors Link brand and its demonstrated experience in quality program development and operations.

Based on this expression of our interest, I look forward to working with you and your Board to implement a Neighbors Link Stamford initiative.

Sincerely,

Kathleen E. Walsh, AICP
President & CEO
